

Advanced PaaS Development Homework

Build #94

Parameters	
GUID	1f14
	GUID to prefix all projects
USER	dusan.culibrk-devoteam.com
	OpenTLC User ID (e.g. wkuhane-redhat.com) to grant admin access for created projects and set the project requester field.
REPO	https://github.com/dulecux/adv-homework_template
	Full URL to the public Homework Repo (either Gogs or Github)
CLUSTER	na39.openshift.opentlc.com
	Cluster base URL. E.g. na39.openshift.opentlc.com
SETUP	<input checked="" type="checkbox"/>
	If true will create all necessary projects. If false assumes that projects are already there and only pipelines need to be executed.
DELETE	<input type="checkbox"/>
	If true will delete all created projects after a successful run.
